WHY SET APPLE TREES NOW?

Because there are over 50 per cent less apple trees now than there were in 1910, according to the Washington Bureau of reports. There are also over 50 per cent less peach trees than in 1910. What will be the result? There is going to be a scarcity of fruit in a few years, therefore now is a fine time to get into the game. We have the biggest and nicest block of TWO YEAR old trees we have ever grown, including Black Ben, Ben Davis, Gano, Staymens Winesap, Grimes, King David, Jonathan, and all the leading varieties. We also have a block of one year old trees that pleases all those who have inspected it. This includes all the standard varieties. We have about 40,000 nice peach trees, also berry plants, cherries, ornamentals and etc. Don't fail to write us at once for our new price list. We will do you right. THE CLEVER NURSERY CO. 111tf

CONSTIPATION

Constipation of the bowels is a stoppage of the sewerage system that removes waste matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste, as it is that the waste pipes of your home be kept open and carry off the waste from the house. If you would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed. 133tf
